

ScriptableObject

```
graph BT; DishInventory --> Inventory; Inventory --> ScriptableObject
```

The diagram illustrates a class hierarchy with three levels. At the top is the 'ScriptableObject' class, represented by a white box with a black border. Below it is the 'Inventory' class, also a white box with a black border. At the bottom is the 'DishInventory' class, represented by a gray box with a black border. Two blue arrows point upwards, indicating inheritance: one from 'DishInventory' to 'Inventory', and another from 'Inventory' to 'ScriptableObject'.
